EXPERIENCE

Freelance, NYC, Web Developer

MAY 2022 - PRESENT

Developed custom websites using bundlers, libraries, and languages such as **Vite**, **CRA**, **React**, **Typescript**, **Javascript**, and **GitHub** which can be viewed in my [online portfolio](#).

Keen eye for **modern design aesthetics** integrating libraries such as **React Spring** and **Lottie** while enhancing **responsive design** with **full user accessibility** in order to **improve customer engagement**.

Expanding knowledge of React framework and libraries in order to migrate multi-page user experiences into single-page applications through use of state management with **React Context** and backend API data handling with **Netlify**.

Julie Vos, NYC, Fulfillment Specialist

MAY 2022 - JAN 2023

Responsible for accurately processing customer's orders including picking the items to fill the order, to carefully packaging and readying the items for shipping internationally.

Assisted with inventory log, keeping storage racks clean and easy to pull product when needed.

Unloaded and prepared confidential company product shipments from overseas production factories to refill backroom storage.

RED Models, NYC, Model

NOV 2016 - JUNE 2021

Versatility to present clothing, designs, and products in editorials, runways, e-commerce, and/or advertisements.

Developed important time management skills and maintained numerous agent relations working independently with no direct supervision.

Kept up with market trends and styling to enhance knowledge of consumer interests in product fit, quality, and aesthetic.
